

Sage 200 Suite v2010 ...Stay connected

Sage
goes mobile
in partnership with
BlackBerry®

BlackBerry® Bold™
9700 smartphone.

The emergence of the mobile workforce is changing the face of business, in an economy where cost savings are paramount many companies are adopting mobile applications to increase the efficiency of their workforce. In a fast paced business environment it is essential that you are always up to date. Sage 200 Mobile can help you stay connected so you have access to critical data that is important to your role, regardless of your location.

How can Sage 200 Mobile help you?

- **Increase productivity** – working smarter with Sage 200 Mobile enables a more productive workforce that is more cost effective. Exposing essential back office data to offsite staff ensures a more effective use of data and helps you to increase efficiency and get the most out of your IT investment.
- **One view of your business** – your workforce have visibility of data so key business processes are streamlined enabling the flow of data throughout the organisation. You have secure access to key financial data such as bank balances, debtors and creditors information as well as customer, stock and project data at a glance on your BlackBerry smartphone. You can easily check who owes you money and who you owe money to – all at the touch of a button.
- **Empowering the workforce** – provides flexibility as you can access data whilst on the move, giving staff the power to be more responsive and make decisions no matter where they are. Your Financial Director, Managing Director, Sales People and Project Manager can all access data that is key to their day to day role so they can be connected to your business at all times.
- **Peace of mind** – supports the security services provided by BlackBerry smartphones to ensure data is securely transferred to the device using HTTPS, giving you the confidence that your data is always safe and secure.

Sage 200 Suite v2010 Not just small business. All business.
